SPAC - AC Energy Savers

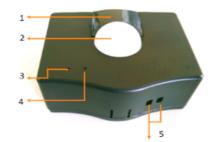

Description

BT SPAC Controller is a smart universal split AC controller that can continuously monitor the temperature & humidity of a space and thereby control the air conditioner operations efficiently to save energy. With ASHRAE's heat index built-in, SPACs can ensure comfortable cooling while efficiently controlling the compressor operations. An inbuilt occupancy sensor allows SPAC to quickly turn off the air conditioner to save energy. A variant of SPAC, the SPACRT comes with an inbuilt clock that allows users to operate air conditioners at a specified predefined time - a simple way to save energy.

PRODUCT OVERVIEW

- 1 IR Blaster and IR Receiver section
- 2 PIR Motion Sensor
- 3 Motion Indication LED (Green LED)
- 4 Power Indication LED (Red LED)
- 5. AC Wire Inserting Slots
- 6. Box Tightening Screw Slots
- 7. AC Wire Tightening Screw Slots

Features

- Continuous monitoring of temperature and humidity to efficiently control air conditioner compressor operations.
- Inbuilt Timer is available so we can set ON, OFF Timings according to working times in offices.
- Intelligent to change setpoint back to 24°C if AC is set to temperatures below 24°C
- A password security feature is available to turn on the WiFi mode in the device.
- PIR Motion sensor in the device can Turn ON and Turn OFF the AC to save energy.
- Air-conditioner is controlled via the IR interface, no problem with the warranty
- Optional Cloud support over WiFi/LoRa, to monitor AC operations across your facility

Specifications

MODEL: BTIR-0320

INPUT: 150-240V,50Hz AC Power

WATTAGE: 2 WATT

MOTION SENSOR TYPE: Passive Infrared

VIEWING ANGLE: 120°

TEMPERATURE: ±0.2° C (max)

HUMIDITY: ±3% RH (max)

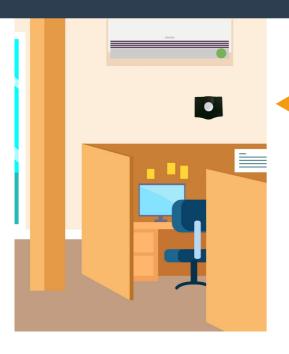

Survey No.70, 201, Sai Krishna Enclave, Plot No:75 Jagruthi Colony, Hanuman Nagar, Kondapur, Telangana 500084

How it Works?

SPAC is simply mounted just below the Air Conditioner or on the ceiling

Occupant tries to set the temperature of Air Conditioner to 18 °C or below set poimt

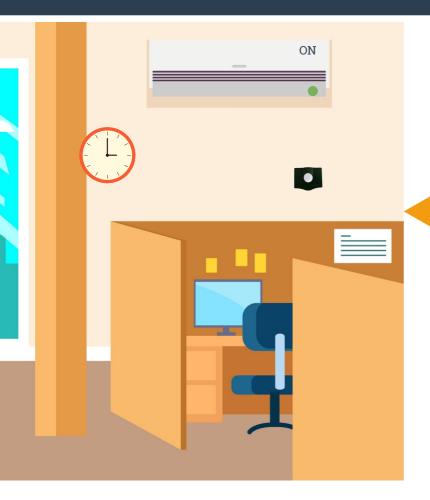

SPAC comes into action and resets the temperature to set value of 24 °C

When there is no occupancy in the room, SPAC automatically turns off the Air Conditioner

How it Works?

Timer (Set in cloud)

ON time: 03:00 OFF time: 05:00

SPAC comes with an Inbuilt timer

Inbuilt timer automatically turns the AC to off condition once the set time is reached.
